

April 6, 2026

Dear Customers,

Notification of Changes to Inspection Requirements and Implementation Framework for Road Worthiness Inspection (RWI) for Pakistan

As previously announced, Autoterminal Japan Ltd. (ATJ) has been officially registered with the Pakistan Standards & Quality Control Authority (PSQCA) as an authorized government inspection body in Japan. Accordingly, ATJ commenced the Roadworthiness Inspection (RWI) for used vehicles exported to Pakistan effective April 1, 2026.

We would like to inform you that PSQCA has recently revised and updated certain inspection requirements. In light of these changes, please find the details outlined below.

Requirements for a valid ATJ certificate of roadworthiness are:

- 5-year-old vehicles are allowed. (Passenger cars, SUVs, Buses, Station Wagons, Trucks, and all commercial vehicles) Please note that age is calculated based on the year of manufacture, not the first registration year.
- Imports through overseas schemes - 5-Year-old SUV allowed & 3-Year-old Cars allowed.
- The vehicle has not been involved in any accident
- Vehicles with tampered mileage are not permitted
- Interior Condition must be tidy and clean with no stains or damage
- Exterior Condition must be clean with no bumps, dents, or dimples
- Engine condition must be sound and functional
- Vehicles exported from Japan and the United Arab Emirates must pass a radiation inspection
- Exhaust gas tests must be passed
- Noise levels must be within permissible limits
- Windshield and all glass must be free from cracks and breakage
- Airbags must be functioning
- The vehicle must be roadworthy in all aspects.

Inspection Implementation Framework

At Autoterminal Japan Ltd. (ATJ), we have established a nationwide mobile inspection (on-site inspection) system to enhance customer convenience.

We are able to dispatch inspectors to yards, storage facilities, and other locations, enabling prompt and flexible inspections regardless of region.

This approach helps reduce the transportation burden of vehicles and shorten waiting times, and we encourage you to make full use of this service.

Should you have any questions regarding the above or wish to request an inspection, please do not hesitate to contact us.

We sincerely appreciate your continued support and look forward to serving you.

Mamoru Fujie

Chief Executive Officer

Autoterminal Japan Ltd.
